A CONFLAGRATION.

The Steamer Carrollton and Big Sandy Burned at Cincinnati.

CINCINNATI, Aug. 6.—A disastrous fire broke out at the wharf Monday afternoon, and in the space of an hour the steamer Carrollton and Big Sandy and their landings were burned to the water's edge.

Once more the ranks of the fire department were attacked, and at least one of the ladders, it is feared, will sacrifice his life at duty's call. He lies on a cot at the City hospital, suffering the tortures known only to those who have been stricken by fierce heat.

In his brave efforts to nip the blaze in the bud Supt. Shaw, of the Cincinnati wharves, suffered painfully burned hands.

The list of injured is as follows: Fireman Bennett, engine company 4, overcome by heat and driven insane; Superintendent William H. Shaw, burned about hands and neck; Jack Crowley, burned about hands, neck and arms; Fireman William Kibby, of No. 10, back hurt, deaf and dumb; fireman on Big Sandy, hands and head burned.

The loss to the Cincinnati wharves is \$30,000. The Cincinnati and Louisville Mail line wharf, with freight, is a loss to the amount of \$5,000. The Big Sandy wharves is damaged \$2,000. The steamer Big Sandy is a total loss, valued at \$40,000, and owned by the Louisville and Cincinnati Mail Line Co.

The steamer Carrollton is a total loss, value, \$20,000; she being comparatively a new boat.

Jack Crowley, clerk on the Carrollton, had his neck, head and side burned, and lost all his clothes on the boat. He is ashore in a borrowed shirt and trousers.

THE PUDDLERS.

Ten Thousand of Them Will Have Their Wages Raised—The Best News in Many Years for the Employers of the Mills.

PITTSBURGH, Aug. 6.—Ten thousand puddlers will have their wages raised. Later the benefit will accrue to at least 30,000 finishers.

The biggest wage advance of years has been voluntarily given the union puddlers through the action of the Shenango and Mahoning valley manufacturers. The district, the Sixth, makes the price for the country generally. The puddlers will get an advance of 25 cents a ton. They are now receiving \$4 a ton, which is the base price for boiling in the amalgamated scale.

The advance will affect about 3,000 puddlers in the Pittsburgh, or First district, and correspondingly raise the wages of the puddlers south and east and everywhere where there is an organized iron mill.

This advance is the best news the puddlers have had in a decade. His wages have dwindled away from \$8 a ton to a maximum rate of \$3.25 a ton as a minimum in this district, and this will make cheering news that will be heralded with joy in thousands of homes. At the rate given into effect Monday an advance of \$1 a ton in the puddling rate will have been made within six months, something without precedent in the history of the Amalgamated association.

Injured by a Runaway Train.

DECATUR, Ind., Aug. 6.—While attending the carnival at Berne the team of John Niblick, of this city, ran away and dashed through a large crowd of people. Those hurt were: John Niblick, badly bruised about limbs. Mrs. John Niblick, seriously injured about head and face. Two small children of Mrs. Niblick were thrown into the air and hurt internally. Frank Krick struck in face with horse's hoofs and may die. Several burglars were smashed and the occupants seriously hurt.

The Trial of Louis Stern.

KRISTEN, Aug. 6.—The trial of Mr. Louis Stern, of New York, who is charged with insulting Baron von Thunberg, deputy commissioner of the Spa here, took place Monday. The Jew-baiters are exploiting the case in the anti-Semitic press. The court sentenced him to a fortnight's imprisonment, and to pay a fine of four hundred marks. It was also ordered that the terms of the sentence be printed in the newspapers.

To Hang October 28.

SAN FRANCISCO, Aug. 6.—Hans Hanson, a native of Denmark, one of the three sailors of the American ship, the Resper, who chopped Mate Fitzgerald to pieces and threw his body into the sea, was sentenced to be hanged on October 28 next by United States Circuit Judge McKenna. St. Clair, the instigator, is to die on Saturday. The third man, confessed and was acquitted.

Five of the Miners Rescued.

LONDON, Aug. 6.—A dispatch from Salt Coats, on the day of Ayr, Scotland, says that five miners have been taken out alive from the Auchenheugh colliery, which was flooded Saturday. The rescued men were completely exhausted. The rescuing parties are continuing their search for the other miners who were in the colliery at the time of the accident.

His Condition a Mystery.

BUCURESTI, U. S. A.—Amos Neek, a farmer, was found dead, and some time later was found unconscious. A physician examined him and found his lower jaw broken in two places, but apparently otherwise uninjured. He is still unconscious and can give no explanation of the injury.

An Execution.

SIXO SIXO, N. Y., Aug. 6.—Richard Leach was electrocuted Monday morning at 11:15 for the murder of his common-law wife, Mary H. Leach, which occurred December 11, 1894. His electrocution took place in an almost unprecedented short time in these days of stunts and appeals. Leach was a young man, a florist by occupation. The woman was taken out of an unsavory resort by him and the two lived together. Whisky was the cause of the murder. There were no sensational features connected with the electrocution.

New Counterfeit Ten Dollar Bill.

WASHINGTON, Aug. 6.—The secret service of the treasury has discovered in circulation a new counterfeit \$10 national bank note of the First National bank of Detroit, Mich. The notes are photographic reproductions of brown backs, series of 1887, printed on two pieces of paper pasted together and silk threads placed between them. The number and serials have been colored by hand. The officials say: "The characters of the notes are not determined by their lines rather than by the lines in the engraving, as they are in the case of genuine work."

DEADLY FLASH.

Methodist Church at Sharnstown, N. J., Struck by Lightning.

Score of People Injured, Some Probably Fatally.—The Bolt Entered the Basement, Shot up Through the Floor, Bursting With a Terrible Report.

FLIMMINGTON, N. J., Aug. 5.—The words of the benediction had scarcely left the lips of Rev. Mr. Bowman, of the Methodist church at Sharnstown, Sunday, when there came a blinding flash of lightning and a terrific burst of thunder that all wrecked the church and injured a score of people, several of them probably fatally. The list of those most seriously hurt is as follows: James Hoff, Minnie Grace, Miss K. Hoffman, Anna Bannan, the sexton, Mrs. Bowman.

The bolt seemed to enter the edifice by the basement, shooting up through the floor and bursting with the force of a huge cannon. Members of the congregation who had started to leave or were standing in groups conversing with each other were thrown into a wild panic, at least twenty of them received injuries more or less severe.

Amid the tumult of screaming women and crying children, the groans of the injured, there was a stampede of frightened horses under the shed outside. A number of them were thrown by their tethers and ran away, wrecking the carriages to which they were attached and dashing down sections of fencing. Pastor Bowman, and scores of willing hands were soon at work among the stricken ones. A number of them were unconscious, and it was thought at first that they had been killed outright. They were laid upon the pews cushions. The parsonage, which adjoins the church, was converted into a hospital. Dr. Snyder, of Oakton, and Dr. Grace, of Clinton, quickly responded to call upon them and attended the sufferers. All the clothing was torn from Sexton Bannan, while his shoes looked as though they had been run through a corn sheller, being literally cut to pieces. He is suffering from the shock and can hardly recover.

The bolt struck through the floor, right at the feet of Minnie Grace and she was thrown down with great violence. Her watch guard was melted and the time piece looks though it had gone through a furnace. Miss Grace's life is despaired of. Mrs. Bowman, who stood near Miss Grace, was also thrown down by the awful explosion. Her hat was thrown from her head and a steel rippel clean out of her corset. She is still unconscious from the shock.

James Hoff got the full force of the giant electric shock, and lies in a semi-conscious condition.

Examination of the building after the excitement had subsided somewhat showed that the bolt had struck at outer wall, ran down to the basement, six feet along the joists, and shot up through the floor like a huge bullet.

The large hall, which was only a slender strip of scantling kept it from crashing down upon the heads of scores of people at the doorway.

SHOOTING MATCH.

A New World's Record Probably Established.

ST. LOUIS, Aug. 5.—A remarkable pigeon shooting match, which probably establishes a new world's record, came off Sunday at South side park between M. C. Brown and E. L. Bennett, both of this city. They shot two matches. The first was 100 birds each, and Brown had a clean score. The second match followed immediately at 25 birds and Brown scored every bird, making 125 in succession without a miss. Bennett also dropped 25 birds in the second match, but only got 12 in the first. Both men are local amateurs. The birds were cast from five traps, American association rules governing. The winner got \$125.

COLORED CYCLERS.

Will Form Independent Wheeling League.

CLEVELAND, O., Aug. 5.—As a result of the legislation adopted some time ago by the League of American Wheelmen excluding the Negro from membership in the league, a national organization of colored wheelmen may soon be organized.

A well-known colored cyclist of this city has received assurances from prominent colored riders in various parts of the country of their hearty approval of the project, and steps are now being taken looking toward the formation of such an organization.

Can Find the Murderer.

PARKERSBURG, W. Va., Aug. 5.—A woman whose name is given as Mary Harris claims that she will soon produce the murderer of aged Mrs. Mullen. The Harris woman called to the police headquarters and asked to see the club with which the crime was committed, and after that was showed her wanted to see the hat which she found clinging to it. She then left, but the next day returned, and it is alleged made a strong enough story to the chief to induce him to believe that there was something in it, and, though nothing is yet been made public, the assistant prosecuting attorney and others are in almost daily consultation with the mysterious woman.

Burglar Anderson's Children.

COLUMBUS, O., Aug. 5.—Mrs. Dora Sandoe Bachman, the female attorney of this city, will go to Cincinnati in a few days to make arrangements for the care and education of the son of the burglar Jim Anderson, now serving a four-year sentence in the penitentiary. Up to the time of his death, Father Anderson, of St. Xavier's, exercised supervision over the children. Anderson is very anxious that the surviving children, one having died since his arrest, shall be brought up properly and educated, and is worried over reports recently received concerning them.

Express Train Wrecked.

ZANESVILLE, O., Aug. 5.—East-bound Cincinnati and Pittsburgh express on the Baltimore and Ohio railroad collided with a west-bound freight on Norwich Hill at 3 o'clock Saturday morning. Fireman Louis Rollin, of Newark, was killed and Engineer May probably fatally injured. The baggage car was telescoped, but the baggage-master escaped, having just jumped into the smoke. The passenger car was wrecked and the freight train broken in two on the hill.

MORTON'S JOKE.

The Shipment of American Pig Iron to England Causes the Secretary to Make a Facetious Statement.

WASHINGTON, Aug. 6.—It is probable that since we have shipped 1,400 tons of pig iron and steel from Youngstown, O., into England the agrarians of England will soon demand microscopic inspection of American pig iron to see that trichinae is not contained therein. This facetious statement, advanced Monday morning by Secretary Morton, was apropos to a cable extract from a German paper, that if the origin of the tinned and packed beef sent out from Chicago could be traced it would be found that packers buy the most inferior quality, such as is not the right to have sold in Germany.

"Personally," continued Secretary Morton, "with a veterinary inspector, I have several times passed through the larger beef-canning establishments in Chicago. My visits to those establishments were always unheralded and therefore there was no special preparation made for a general viewing of their premises and their methods of slaughtering, cooking and canning beef. From those official investigations, I am justified in denying as wholly untrue all that the German paper, as above quoted, has said in regard to American canned meats."

"The other statement to the effect that American pork, hams and sausage taken into Germany must henceforth be stopped and microscopically examined, is nothing new. It is right in line with all of the recent efforts of the German government to placate the agrarian element. It illustrates the effect upon the United States of a protective tariff, when Americans are the 'foreigners.'"

MOUNT TACOMA.

Word Received From the Exploring Party by Carrier Pigeons.

SAN FRANCISCO, Aug. 6.—A special party from Tacoma says: "Homing pigeons sent out with mountain climbers returned Sunday afternoon with messages stating that Fred L. Cowden, L. J. Price, E. A. Lynn, Wm. Love, Walter M. Bosworth and Fred Evans, nearly all experienced mountain climbers, had been badly frozen in attempting to reach the summit of Mount Tacoma. Messages state that the wind is blowing a gale. Pigeons were released at a height of 15,000 feet at a point known as the 'Camp of M. J. Clouds.' Love is reported incapacitated but Bosworth, who has climbed to the summit repeatedly, had at the hour the messages were attached to the birds (3 o'clock Sunday morning) persisted in trying to tip the top in order to reach the summit. The photographs, might make photographs of the crater for the purpose of comparing them with others taken last season, in order to see if any changes have taken place in the summit as the result of reported eruptions."

THEODORE DURRANT.

An Attempt Made Upon His Life by a Young Man, Who is Thought to be Insane.

SAN FRANCISCO, Aug. 6.—A desperate attempt was made by a young man at noon Monday to assault Theodore Durrant. The man, whose name was not learned, was evidently a lunatic, and the deputies say he had all the appearance of being insane. As Durrant was being taken down the stairs of the court room to the sheriff's office the man made a rush to get at Durrant. Jailor Sattler caught the fellow and threw him back at the same time, ordered him to keep away. As the party was going along the corridor to the sheriff's office the lunatic appeared again and ran toward Durrant. He had his right hand in his overcoat pocket as though on a weapon, and there was a wild look in his eyes. He had nearly reached Durrant when Sattler stepped up. The fellow made a desperate struggle, but was overpowered and locked up.

Senator Stewart as an Editor.

WASHINGTON, Aug. 6.—Senator Wm. M. Stewart, of Nevada, as soon as he recovered from the injury to his knee sustained last week by jumping out of a street car, will, according to an announcement in a local newspaper, enter the field of journalism. He will be at the head of the editorial staff of a weekly paper to be known as the Northern Knight, published by the Order of Silver Knights of America, recently incorporated with headquarters in this city. It will advocate the free coinage of silver.

The Cruiser Minneapolis.

WASHINGTON, Aug. 6.—Some curiosity is evinced in navy circles as to the destination of the Minneapolis. This speedy cruiser, the sister ship of the Columbia, which recently made so successful a run across the Atlantic, is now at Norfolk, where she is being fitted out as a flag ship. She will not be assigned to the North Atlantic station, for the armored cruiser New York is the flag ship of that squadron.

QUINLANS CONFESS.

In their Opinion Miss Cigrand, Mrs. Connor and Her Daughter Pearl And the Williams Sisters Are Dead and That They Were Murdered by Holmes—They Also Believe That Holmes Murdered Pictzel to Quiet Him.

CHICAGO, Aug. 5.—A morning paper gives the following particulars of the confession made by the Quinlans Friday to Chief Badenoch, which was taken down by a stenographer.

They related that in their opinion Miss Cigrand, Mrs. Julia Connor and her daughter Pearl, and Minnie and Nannie Williams are all dead and that Holmes murdered them. Pictzel, they said, quarreled frequently with Holmes because the latter would not act squarely with his associate in the dealings, and they believed that Holmes killed Pictzel so as to prevent any telling of his crimes, which, they believe Pictzel was aware of to some extent. As to whether Pictzel participated in any of the murders they do not know. They believe that Holmes after killing Pictzel felt it necessary to dispose of the dead man's children and that Alice, Nellie and Howard Pictzel were killed by him. As to Miss Vantassel, they know nothing. They never saw her.

Miss Cigrand, Mrs. Connor, Pearl Connor, Minnie and Nannie Williams, they thought came to their death in the Holmes building. Mrs. Quinlan related that one day when her husband was away she saw Holmes poking his head into the store in his office, which was red hot, something that looked like a portion of a human body, and that a horrible odor came from the room. Quinlan said that after Holmes had gone away he found a bottle of chloroform in the steel vault. They both said that they saw the Williams girls about July 5, 1893, for the last time, and that they had been put out of the way since that time.

COLLIERY FETE.

Marked by a Tragedy—Manager Shot by a Discharged Employee. A Bomb Under the Assassin's Coat Explodes, Killing Him.

DOUAI, France, Aug. 6.—During the fete in the mining district of Aniche, to celebrate the jubilee of M. Vuillemin, manager of the Aniche colliery, an anarchist named Decoux in the crowd fired five revolver shots at M. Vuillemin while he was leaving the church. Three of them took effect, though the wounds are not serious.

Directly afterwards a tremendous explosion was heard, and Decoux's body was hurled several yards, while ten of the bystanders were thrown to the floor, injured by the explosion. Decoux's father rushed upon the prostrate body of his son, and, lifting him, exclaimed, "Canaille, assassin!"

Decoux had been carrying a bomb beneath his coat, which was prematurely exploded. Decoux was dismembered and terribly mutilated, and expired immediately.

An Alleged Forger.

ST. LOUIS, Aug. 5.—Charles W. Baker, who was arrested Friday for obtaining goods under false pretences, the deputies say he was a forger, and is now in Dayton, O., for the offense. He admits that he obtained a gold watch and some jewelry from S. A. Holdener, a jeweler at Greenville, Ill. Baker's parents reside in Dayton, O., where he purchased a forged check for \$15, signing Mr. Ira C. Wellborn to the same last May. Baker's wife is at 716 North Garrison avenue, this city. He represented that he had a shirt factory at 417 Washington avenue, and had houses in several large cities. He had been in the habit of making large harvest here when arrested.

Mr. Pettit's Canvass.

LOUISVILLE, Ky., Aug. 5.—Tom Pettit, the free silver candidate for governor of Kentucky, is going to make a great play on the stump of not having been treated fairly by the republicans and democrats. J. A. Parker, state chairman of the populist party, says that Pettit is a forger, and that he refused to allow Mr. Pettit to take part in the joint debate, he will not speak with either separately. Mr. Pettit will likely begin stumping the state in a short time.

Million Dollar Fire at Sprague, Wash.

SPOKANE, Wash., Aug. 5.—Sprague, the county seat of Lincoln county, and the division point and location of the Northern Pacific car shops, and having a population of 4,000, was almost destroyed by fire. A high wind, amounting almost to a hurricane, was blowing at the time and the fire swept over the town with relentless fury, destroying more than \$1,000,000 worth of property in two hours' time.

Reminical and Seditious Manifests.

BALTIMORE, Aug. 5.—Frederick A. Dattner, directed by a committee of his intent at his wife, Mrs. Katie De Groot, Sunday morning, and, falling in his purpose turned the weapon against himself with fatal effect. The cause the act is not known, but from his acrid remarks for the last week, it is believed that he was seized with homicidal and suicidal mania.

FAIR FACES Disfigured by Eruptions AND CURED BY AYER'S SARSAPARILLA

"Some years ago, I was in a terrible condition with a humor, or eruption, which broke out all over my face and body. Seeing the testimony of others as to the efficacy of Ayer's Sarsaparilla in like cases, I concluded to give this medicine a trial, and the result was a thorough cure, no sign of the complaint making its appearance again. I have no hesitation in recommending Ayer's Sarsaparilla for any kind of skin disease."—J. W. DEAN, Moss Point, Miss.

Railroad Commissioner,
G. R. KELLAR, of Nicholas.

This is from the pen of Henry Watterson, the editor whom the Republican press and speakers so often love to quote—when it suits their purposes: "All that is happening in Kentucky, as far as it relates to Kentucky, is peanuts politics. The record of twenty-five years unbroken Democratic administration of the State Government is one of extraordinary merit. There has been less of waste, less of extravagance, and more of efficiency, than can be shown during the same period by any other of the State Governments of the Union. There is no domestic or personal reason why there should be a change of parties at Frankfort."

Senator Peffer hopes there will be a resurrection, but he admits that at present the free silver agitation in the West is dying out.

A clipping from the Greenup Democrat somehow slipped into our editorial column last week without credit. We regret the failure to give proper credit, and hereby apologize.

The bond syndicate, in compliance with its contract to protect the Treasury gold reserve, has deposited \$2,000,000 in gold at the New York sub-Treasury in exchange for greenbacks, making good all the recent withdrawals of gold.

Break it gently to McKinley. The employees of the Pennsylvania Bolt and Nut Company have been notified of a second advance of 10 per cent in wages and the Lebanon Iron company has also increased the wages of its employees 10 per cent.—C. J.

A mob of 500 white miners visited a negro mining camp near Spring Valley, Ill., for the purpose of cleaning it out. The negroes were roughly handled and many of them seriously injured. The men were all driven off and the women warned to leave. Take note of the fact that this occurred in the North.

The World's Fair Tests showed no baking powder as pure or so great in heating power as the Royal.

Had Cleveland instead of Harrison been President in 1890 we would have had no silver purchase bill, and no McKinley tariff act, and no Reed Congress, and consequently no panic in 1893.—Louisville Post.

Joe Blackburn's candidates for nomination have met with overwhelming and humiliating defeat in some of his supposed strongholds. The Democrats don't like what Joe said recently, and it is right that they should show their disapprobation.

Hearing the Republicans talk about Bradley a few weeks ago one was led to believe that they would be satisfied with nothing less than a joint debate with the Democratic nominee in every county in the state; but when the time for the arrangements came Mr. Hardin asked for forty debates and it paralyzed Col. Bradley. It has long been known that "wind" is Bradley's chief stock in trade.

The finances of the state of Ohio are said to be in a nearly desperate condition. Gov. McKinley has displayed as little financial ability in managing the state's affairs as he did in managing his own private affairs, which went to wreck by thriftless business practices. The Ohio treasury is short \$2,000,000, and there is no chance to make it good from the incoming taxes, which are forestalled for other purposes. McKinleyism in state financial administration appears to be as great a fraud as it is in national tariff legislation.—Chicago Chronicle.

Senator Blackburn's defeat in Clark county was in spite of the efforts and money of M. F. Thompson, a Louisiana sugar-planter, formerly of Winchester. Thompson was doing some fairly effective work by appeals to his old friends, until it was learned that he was one of the men that bolted the Democratic party in Louisiana last fall, that invited McKinley to speak at New Orleans and is now Chairman of a Republican committee. The Clark county Democrats couldn't stand that.—C. J.

When it came to a "show down" in the matter of debates between the candidates for Governor it was seen that Mr. Bradley had been only bluffing. It was with the greatest reluctance that he finally agreed to twelve debates with Mr. Hardin for the entire campaign, while the latter insisted upon at least forty. Bradley was also humored, they allowing him to select the place for the first debate. He chose Louisville. August 19th is the date. Hardin will open in a speech of one hour and fifteen minutes, Bradley will follow with one hour and a half, and Hardin will have fifteen minutes in which to reply. This order will alternate in the debates, which follow.

The "American" is a Philadelphia newspaper that is edited and published by Mr. Wharton Baker. Mr. Baker is a Republican and a free-silver advocate. He is one of that coterie of Philadelphia Republicans who recognize certain well-known facts, and are not ashamed to confess and advocate them. They recognize, first, the fact that free coinage of silver at an arbitrary ratio is a part of the protective system. They recognize, secondly, that protection is only possible by a combination of selfish interest to plunder their fellow citizens. In the third place, they perceive that both protection and free silver at 16 to 1 are schemes for putting up prices by statute. Hence they are in favor of combining with the silver miners for the purpose of promoting their mutual interest.—Courier Journal.

Democratic Good Times.

It is not unreasonable to conclude that the whole number of work men benefited by the increase of wages under the new conditions of Democratic rule exceeds 500,000 wage-earners. This includes neither those industries far removed from great news centres nor new establishments that have recently sprung up under the unprecedented business revival.

Coming without strikes or petitions, these marked increases in wages constitute, as an exchange wisely remarks, "one of the most remarkable chapters in our industrial history." We have not had to wait and wonder how things would shape themselves; neither have we been tortured nor made anxious by gradually appearing signs of good times. The country has responded immediately and impressively to the wise acts of the Democratic Administration, and our people may be pardoned if they exclaim, in Webster's historic tribute to Hamilton: "Democracy smote the rock of the national resources, and abundant streams of revenue fushed forth. It touched the dead corpse of Public Credit, and it sprung upon its feet."—Philadelphia Record.

SULPHUR SPRINGS.

Rev. Higgins preached several discourses at Newcum creek last week.

Some rude boys, whose names we will withhold at present for the sake of their good parents, cut the backs of their buggies harnesses, but fortunately it was found out before there was any damage done. Unluckily for the boys Bro. Higgins is a member of the M. P. S., which is a society that ferrets out such perpetrators. Finding that he would be caught he surrendered to the court and was fined \$10 and costs. Pretty dear backing straps, were they not?

The rain and hail which fell in this section was in some parts the heaviest ever known. Tyree's branch of Bear Creek, a stream 1/2 or 3/4 of a mile long, ran out over 6 feet deep, sweeping fences and everything before it. On Rove Creek the rain and hail fell in such torrents that it almost totally destroyed the tobacco crop and did much damage to corn. The gardens and corn fields on bottom land were totally destroyed. There is not a third of a crop left on the creek, besides some cattle and hogs were drowned. We are credibly informed that the hail drifted to the depth of 14 inches in some places. We hear that Marion Stuart's barn was washed away.

Bro. George Justice, the Baptist minister, preached a sermon on immersion the morning prior to the flood, and said that immersion was the only mode of baptism. The flood was confined to the Baptist section, so I guess they got water enough for once.

EDMONDS BRANCH.

Wm. Blankenship made a business trip to Culbertson, Ky., one day last week.

Our Deputy Clerk reports that the matrimonial fever has again broken out.

Within the last week he has issued marriage license as follows: G. J. Carter and Lula Lakin, Glover Adkins and Martha Diamond, Harry Swinney and Viola Marcum. The happy couples have our hearty congratulations.

John W. Roberts has conveyed by deed to Charley Smith a fine tract of Blaine bottom land for a valuable consideration.

Judge Woods of Webbville dropped in among us and took out a nice little drove of fat cattle one day last week.

All the schools that are going on in our neighborhood is giving satisfaction so far as we heard.

Mat Browning was doing Fisher-ville last week.

Mrs. Mary Hughes and Mrs. Nancy Bentley attended church on the Twin Branches last Saturday and Sunday and report a nice time.

Rev. Glvons preached to a large and appreciative audience last Sunday evening. His last round as we are told.

By means of singing to Fallsburg and back twice a week William Roberts, an invalid, manages to keep up his tobacco and coffee.

"Incurable."

We know that it sounds quackish to talk about the Electropoise curing incurable diseases, but bear in mind the fact that it is the old treatment which has pronounced the case incurable. We do not make the claim that we can cure all so-called incurable diseases, but we do maintain with all earnestness that a case pronounced incurable by your family physician, is a splendid field for operation of the Electropoise. It may be just the treatment necessary, and is quite likely to be so. It fails, this is no argument against the "Poise," but in such a case, the fact of the physician's statement is proven to be true. But many's the patient who has been given up by his physician who has again received life through treatment of the Electropoise.

My Queen.

I gazed upon my queen while mute amote
The night air into glad harmony,
And on the ripples of a silver sea
I heard the bright tones, rapturous, dance and
flow.
Heard and sight were wed, each flattering note
Heard some new perfection of my queen to me,
Crowned by music it was bliss to see
Her form, while robed, the jewel at her throat,
Her glistening hands, her dusky perfumed hair,
Her low close brow, her deep proud dreaming
eyes
Bent kindly upon me, her worshipper.
The dulcet, delicate sounds that shook the air,
As if love's joy rained from the starlit skies,
Seemed all sweet articulate thoughts of her.

The postoffice and building which it occupies will be removed to the rear of Gunnell's store, on Main Cross street, where the business will be conducted until the new building shall be completed. It will contain a compartment for the postoffice.

U. S. Commissioner J. W. M. Stewart had five men before him, this week upon charge of breaking some of Uncle Sam's rules. John Whit, Lee Sturgill, Patrick Collins and Wm. Scott were charged with retailing liquors without government consent. All except Collins were held to answer to United States Court and are now in jail. Wm. Flannery, Jr., was held on a charge of twisting tobacco and selling it without paying the manufacturer's tax. Collins and Scott are from Lewis county and the others are from Elliott.

The U. S. Gov't Reports show Royal Baking Powder superior to all others.

Commissioner's Sitting. The undersigned will, on August 10th, 1895, begin sittings in the case of Peter Cline vs. Sam Frazier and others, to hear all claims and matters pertaining to the settlement of the estate. Sittings will be continued from day to day until completed. A. A. SHARP, M. C.

A special train will bring a number of relatives and friends from below on Thursday morning and return in the afternoon with the bride and groom.

Louisa Against the World.

When Louisa undertakes to do a thing she will not do it by halves. Our people have shown this sort of disposition on several occasions, and the entertainment of the next Annual Conference will be no exception to our unvarying custom. We have invited the clerical gentlemen to come to the prettiest town in the State, and to be the guests of the most hospitable people on earth. They will eat of the fat of the land and repose on the softest and cleanest of beds. All this, and more. But in order to signalize the advent of so many reverend gentlemen in our midst we have, regardless of expense, arranged a display not often on the program of entertainment. After some correspondence with the head of the Bureau of Meteorology he has consented to furnish us with a total eclipse of the moon, to begin about 9:15 p. m. Sept. 3, and continue all night. The same accommodating Bureau has also agreed to have the "Clouds Rolled By" on that occasion, so that nothing will in anywise mar the grandeur of the scene. Smoked glass furnished on application.

We feel sure that our effort to eclipse all former entertainments will be appreciated.

Don't fail to see that elegant line of silverware from Duhme's, at Conley's.

Unjust.

The Portsmouth Blade publishes this very unjust criticism on Pikeville.

"The Enquirer of this date contains a dispatch from Ashland, Ky., to the effect that evil engineer B. F. Thomas, of Louisa, announces that he is in receipt of a letter from the representative of a New York syndicate asking him to meet him the coming week, prepared to give information regarding the building of a railroad up the Big Sandy valley from Pikeville. So far as the commercial value of such a project is concerned, the writer knows nothing, but it is a sure thing that the country in the vicinity of Pikeville needs some sort of a civilizing influence if the stories from there are to be believed on. It is said that there is a case now pending to be tried at the next term of court in that town, which involves a social crime that exceeds in depravity anything up to date. Sodom and Gomorrah are distanced, and even Oscar Wilde would be in danger of the flag. Pikeville needs a railroad. If it can't get a railroad, a whipping post might be temporarily available."

We nearly forgot that the Republicans of Boyd and Lawrence will gather at Louisa on the 15th to offer a lamb for the slaughter. It's astonishing how eagerly Boyd county gives to Lawrence the honor of running the candidate this year. And Lawrence Republicans are eagerly and almost unanimously declining in advance the proffered distinction. One or two have said that they would not decline the nomination if it were tendered on a solid silver platter, but nobody has heard of the dish being passed around. A very clever gentleman living right into the mouth of Hood is not waiting for lightning to strike him, but is out on a big hunt looking for the bolt. And the man from Hood has lots of "Sarsaparilla," too, and this sort of medicine buys votes as well as fixes conventions.

For the next few weeks Louisa promises to be quite lively. The Teachers' Institute begins Monday and continues five days. On Tuesday the special term of the Lawrence Circuit Court will begin, and it and the regular term, which immediately follows the special, will run well into September. Conference begins on Wednesday, September 4th, and will probably be in session about a week.

And we must not forget that two weddings will occur next week. All the world loves a lover, and consequently these two important occasions are greatly interesting our people.

PIERCE Guarantees a CURE.

In all Bronchial, Throat and Lung troubles Dr. Pierce's Golden Medical Discovery brings relief and a permanent cure. The way is open to the germs of Consumption if you suffer from Asthma, Bronchitis or Catarrh. Begin early with "Discovery" and a cure is certain.

English, Ocho Co., Tenn.
Dr. R. V. PIERCE
Dear Sir: My wife was afflicted with asthma for twenty years. She grew weaker and weaker. For one week she was treated by three eminent doctors, but all failed. They told me there was no cure. I was discouraged as I was resolved to try Dr. Pierce's Golden Medical Discovery; she used five bottles and two weeks of your "Pleasant Pills," which has a permanent cure. She gained twenty pounds in weight. The cure was effected.

Municipal Manipulations.

Promptly between seven and eight Tuesday evening Mayor O'Brien ascended the throne and asked his fellow-legislators to stop their debate on the free and unlimited coinage of silver and get down to business. The city attorney didn't like to give it up so, Mr. Brown, but saying he would see 'em another day he took his seat by the window and listened to the clerk call the roll. The tally showed the Board to be pretty full—all being present save the member from the North-end. He, too, ambled in presently and took his accustomed part in the subsequent proceedings. These were partly routine and partly not. Some claims were presented and a few were allowed. The committee on finance closely scrutinized all accounts, and when one is allowed it is safe to say that it is just.

The Board has at last heeded the cry of the citizens of that part of Louisa which is located along what is called the lane, and which is flooded every time there is a heavy dew. An engineer has been directed to make a survey of the inundated district and report a plan for relief.

The bonded indebtedness of Louisa is now only \$1500, being a reduction of nearly \$4500. We have between \$300 and \$400 in the treasury, besides about \$3000 in good assets. It is also the intention of the Council to make the rate of the next lower than it has been for many years. For these and all other mercies, good Lord, make us truly thankful!

But there are hard lines in store for the trespasser, and don't you fail to keep it in remembrance. The law-breaker who is unlucky enough to be sent to Fort Vinson—do not confound this with Hotel Vinson, please—and who refuses to work when ordered, will not only get no credit on his fine but will feast on very dry bread and extremely thin water. The same fate is in store for the high-toned dude who doesn't like to be seen carrying his watch chain and charm to and from the scene of his daily recreation. Selah.

An ordinance was offered and lays over one month making it an offense to push or pull trucks, hand carts, wheelbarrows and such like along any pavement in Louisa. This will pass, and all the people will say amen. This concluded the evening's entertainment. The manager returned thanks for the prompt and general attendance, and declared the meeting closed and to stand closed until the next regular convocation, except when convened in case of emergency. The lights were put out, the disintegrated wisdom went its several ways, and the man in the moon pushed a cloud out of the way, so John Ratcliff and Jim Lackey wouldn't stumble over the loose boards along the lane.

PRESTONSBURG.

The Sewing Circle met at Mrs. Hopkins Thursday. Ice cream and pickles was the order of the occasion.

Miss Woodsie Harkins gave a birthday party at her beautiful home Wednesday night. It was magnificently conducted.

The Sewing Circle is going to get up another play, something similar to the one they did have. It represents the true incidents and characteristics of a real live circle. The Circle is of a great help and means in raising funds for benevolent purposes and is one of those perpetual institutions that never lags nor disbands, but a lodge of mutual love and respect for its members, as well as the cultivation of such exquisite and artistic taste in making such beautiful and useful articles.

A. J. Davidson's barn was burned here Thursday night, containing about one hundred and fifty bushels of corn and other grain. From all indications it is supposed to have been set on fire for some purpose or malice.

Rev. Earnest Robinson was in town this week on business. The time is slowly wending. Only a few more days and then the silken tie—No more suspense, no more beatings. Love has triumphed! The Victory! The Victory!

Henry Fitzpatrick has been out driving every evening this week.

Frank Jones killed another beef this week.

Judge Goble returned from Hindman court yesterday.

John W. Langley has located here to practice law.

Nervous debility is a common complaint, especially among women. The best medical treatment for this disorder is a persistent course of Ayer's Sarsaparilla to cleanse and invigorate the blood. This being accomplished, nature will do the rest.

Cincinnati Excursion.

On Thursday August 29th the C. & O. Railway will sell round trip tickets to Cincinnati by trains 17 & 15 the rate from Callettsburg being \$2.00, good returning only on Special Excursion train leaving Fourth Street station 11 p. m. same date.

Do not fail to make this trip and attend the Picnic and Outing at the Ludlow Lagoon given by the B. of L. E. & O. R. C. or visit the Zoo.

The most disastrous hail storm that ever visited this section swept over a few miles of territory in the lower part of this county and in the adjoining West Virginia country last Sunday afternoon. The hail fell in very large pieces, destroying vegetables, stripping the corn stalks and damaging crops generally. It is claimed that the hail drifted in many places two or three feet in depth. One of the most remarkable things about the matter is that on Tuesday evening—two days after the storm—a great many hail stones as large as partridge eggs were gathered along the railroad track and given to the passengers on the train. Descriptions of hail storms and the size of the hailstones are usually exaggerated, and we were somewhat dubious about the reports; but a thorough investigation shows them to be true.

Joe Blackburn ruined his reputation both as a Democrat and as a prophet when he said that either he or a Republican would succeed him in the United States Senate. The Democrats are showing by their nominations for Legislature that they do not propose to allow Mr. Blackburn's policy to be successful.

Employ modern painters, who work by modern processes, who use modern tools and do your work at modern prices. There are some OLD MOSS-BACK painters who have been in business 30 years, who charge you war prices, who do not advertise, who paint with antiquated tools, who do not study new methods or take or read any of the trade papers—they are BACK SUMBERS! Why employ them? BUSINESS MEN don't do so. They look at their pocket-books and employ men who do work up with the times!

BIG PROFITS - On Small Investments.

Returning prosperity will make many rich, but nowhere can they make so much within a short time as by successful speculation in Grain, Provisions and Stock.

\$10 For each Dollar invested can be made by our Systematic Plan of Speculation

originated by us. All successful speculators operate on a regular system. It is a well known fact that there are thousands of men in the United States who, by systematic trading through Chicago brokers, make large amounts every year, ranging from a few thousand dollars for the man who invests a hundred or two hundred dollars up to \$50,000 to \$100,000 or more by those who invest a few thousand.

It is also a fact that those who make the largest profits from comparatively small investments on this plan are persons who live away from Chicago and invest through brokers who thoroughly understand systematic trading.

Our plan does not risk the whole amount invested on any trade, but covers both sides, so that whether the market rises or falls it brings a steady profit that piles up enormously in a short time.

Write for CONVINCING PROOFS, also our Manual on successful speculation and our Daily Market Report, full of money making pointers. ALL FREE. Our Manual explains margin trading fully. Highest references in regard to our standing and success. For further information address

(CONTINUED NEXT WEEK.)

IRAD.
W. M. Burton, who is teaching
school on Little Blaine spent Sat-
urday and Sunday with home
folks.

Dr. J. D. Sturgell and wife were
calling at J. B. Carter's Saturday.
Married, at the home of the
bride's parents, on Friday last, J.
M. Carter to Miss Mary Whit-
May peace and happiness attend
them.

Robert Rickman has sold his
farm and will remove to Missouri
soon.

Misses Virgie Lakin and Eve
Reece spent a few days with friends
at this place last week.

Rev Adams Given delivered his
closing sermon at Pleasant Ridge
last Thursday night.

Al Carter of your place made a
business trip to Carter Bridge last
Thursday.

Awarded Gold Medal Midwinter Fair, San Francisco.

POTTER.
The Widow Wilson of this place
is quite sick.

Jas Bernard and Widow Ben-
and are very sick.

Ed Webb, the Fallsburg Mar-
makes regular trips to this place.
He gets his man every time.

Is it no crime to get drunk and
go to a box supper, get into a fight,
and get your eye blacked and scare
all the women and children into
spasms? Seems not.

Bro. Higgins is in the land.
Look out for basket meeting.

The boys seem to be catching
the ball craze around here.

Miss Tanne, of Huntington, is
the guest of Mrs Blankenship of
this place.

The Sunday School of this place
has died a natural death. The
cause seemed to be lack of care, at-
tention and proper food.

The Road Reviewer have just
finished the review of a road from
Boyd County line to Louisa. This
makes the tenth time the road has
been reviewed through there. All
the effect it has on the county that
I can see is, it keeps the reviewers
in tobacco.

TRILBY.
